

## POINTS TO PONDER

- You can't be healed without the seed of God's Word being sown.
- The Word of God is to healing as physical seeds are to this physical world. If you want to produce a crop, plant a seed in the ground. If you want a healing, plant the Word in your heart.
- We put so much emphasis on diet and exercise, but we should emphasize the Word of God.
- I believe that spiritual things, specifically focusing on the Word of God, is more important than any physical or natural vitamin, supplement, or health regimen. The Word of God should be your focus.
- God's Word never fails to produce healing. Sometimes we fail to take the Word of God and let it stay on the inside of us, but it's never God's Word that is at fault.
- When God says something to you through the Word, you have to take it, hide it in your heart and leave it there. You can't dig it up or let somebody else dig it up.
- In your spirit, you're complete. You've got everything that you could possibly ever need in your spirit already. You don't need it to come from the outside. It's inside of you, but you do have to activate it.
- Your heart automatically starts producing whatever you focus on.
- God never intended for us to live off of people who have a special anointing on their lives or that we just follow them around, dependent upon them.
- You may not see a complete healing the very first moment. But if you can see any improvements, you ought to say, "Man, that's the blade, and then here comes the ear, and now the full corn in the ear." You just give it some time, and you'll start improving.
- Those who put their faith in the Word, the incorruptible seed, are displaying the greatest exhibition of faith that there is.
- When it comes to healing, many people are controlled by what they feel. They say, "I still feel pain. How can I believe that I am healed?" Faith takes God's Word that says, "by His stripes I am healed" (Is. 53:5) and believes that more than what is felt and more than what the doctor says.

- Believe the Word of God more than anything else.
- You need to say, “I’ve spoken the Word, and I’m getting better. I don’t deny that I still have a little twinge of something, a little pain. I don’t deny that I have it, but I deny that that’s all there is. The Word of God is more real to me than what I feel in my body.”
- You will even have well-meaning people—people who aren’t mad at you and who love you but think you’re delusional—try to talk you out of it. I tell you what, it’s as easy as what I’m saying, but it’s one of the hardest things you’ll ever do to get to where you *“let God be true, but every man a liar”* (Rom. 3:4).

## Need prayer?

Please call **719-635-1111** for prayer or for more information on Charis Bible College.
