

**LESSON REVIEW
ANSWERS**

1. What are some ways Jesus healed?

Possible answers: He asked questions to find out what the people were believing for; He engaged people's five senses to activate their imagination; He healed because of the person's persistence; His garment was touched and the apostles used prayer cloths; He healed through authority; He healed through gifts of healing; and He healed through communion.

2. According to Matthew 9:28–30 and Matthew 8:7–13, what is the key to healing?

Faith is the key to healing.

3. What is our role in healing?

We receive healing from Jesus according to how we believe it's going to happen. It isn't up to God to decide how to heal us.

4. How can imagination aid in healing?

Possible answer: When a person can imagine the healing, then they can have faith to believe that they can be healed.

5. Using Jesus's example in John 5:8–9, what is often needed to accompany faith to see healing in someone?

Often Jesus required the person to do something, so the action proved they had faith.

6. What would you suggest to someone who wants healing but hasn't received it yet?

Possible answers: I would suggest the person change the way they've been thinking about healing; I would ask them what they have the faith to believe for right now and guide them to receive at that level of faith, right now.
