

POINTS TO PONDER

- Fear is the opposite of faith, and fear is a terrible motivator. Fear is a tormenter. Fear will believe the facts or believe a lie, but it will receive both as if it were the truth, and that's the problem. It is faith in reverse.
- All of that Holy Ghost ability came to live in your spirit man the minute you were born again. You may not have known it, but it did. You've had faith alive in you ever since you were born again.
- When you know somebody loves you and has your best interest at heart, it's really easy to trust them. They build trust in your life through that love relationship. This is exactly what faith does with God and with the Word of God.
- If you're meditating and spending time on all the natural news of the world and wondering why you're not seeing victory in your life, think—what are you listening to?
- God's got a good report for you. We've got to be listening to the Word of God because that's where our faith is going to come from. So, if you're listening to things contrary to the Word of God, you're not going to have faith for healing. Faith is so important to the heart of God that without faith it is impossible to please Him.
- In the love of God is where we find hope, and this kind of hope cannot disappoint.
- God is God. His Word is true, and what He's given us is something completely supernatural that can cause the impossible to become possible for you right now.
- Many people think that facts and truth are the same thing. No, God's Word is the truth, and truth will always trump your reality.
- Let the Word be magnified in your life, not the circumstances.
- The medical report may be factual, but the Word of God has the supernatural power to actually change those facts, to actually change the reality of what you've known into something brand new.
- When your faith is in Jesus and His finished works, then it can't be about you and your works.
- Healing is not about us, but it's for us.
- When people supernaturally receive the provision that the Lord has already provided, the glory goes to God.

- When you go to see a doctor, they will do their best to give you a diagnosis, but it may or not be a good report. On the other hand, God's got a good report for you with your name on it.
- There is a joy and peace in believing that will be your strength, even in the midst of challenges. You've got the fruit of the Holy Ghost living on the inside of you as you believe God in the midst of all that's going on around you.
- We make it hard when we make it about ourselves. But when we're truly in faith, we're in a place of rest, as if we have found great treasure, and the joy that comes from it is literally our strength.
- God's Word is truth, and when we know His Word, we're set free from doubt, from unbelief, and from limitation.
- Faith believes God's Word and values it like treasure.
