

**LESSON REVIEW  
ANSWERS**

1. What is the correlation between salvation and healing?

**Possible answers: I can't earn my salvation, and I can't earn my healing; Jesus died on the cross for my sins and for my sicknesses, so I'm forgiven and healed.**

2. What role does faith have?

**We receive healing by grace through faith, just like we enter into eternal life by grace through faith.**

3. How does Psalms 103:1–4 relate to the grace of God?

**Possible answers: David encourages us to remember the benefits of God; God has forgiven our sins and healed us because of what Christ did on the cross.**

4. Does God's grace mean you'll never be sick? Why or why not?

**Possible answer: No; I'm forgiven and righteous, but because sin exists, so does sickness. I'm not a victim of sickness. Because of the grace of God, I'm fighting sickness from a position of victory.**

5. If God brought sickness as a punishment under the Old Covenant, is He bringing sickness on people today? Explain your answer.

**Possible answer: God afflicted people because of sin under the Old Covenant. Jesus redeemed us from the curse of the law because He redeemed us from sin (Gal. 3:13–14). Jesus wouldn't be healing all if God was still putting sickness on people—Jesus wouldn't go against what God was doing.**

6. What role does sin play in your health?

**Possible answers: God isn't going to withhold healing because of sin, but it can open a door for Satan to bring sickness into my life; when we confess our faults to one another, it opens the door for healing in our bodies and relationships.**

7. After understanding God's grace, how will you receive your healing?

**I receive my healing by grace through faith in what Jesus did.**
