

**LESSON REVIEW
ANSWERS**

1. Why is it important to note that Jesus was moved with compassion, rather than pity or sympathy?

Possible answers: Pity is often accompanied by condemnation, and sympathy tugs at the heart but doesn't move a person to action. Compassion moved Jesus to action that brought signs and wonders.

2. When someone shares that they have a sickness, what can you tell them about their sickness?

Possible answers: This sickness is not from God and doesn't have to be your normal; this sickness doesn't have to define your life or your future; this sickness doesn't have to steal your job or your marriage or your energy.

3. What does a revelation of God's love for you motivate you to do?

Possible answers: God's love motivates me to compassion and to action; God's love motivates me to share His love and speak words of life to others.

4. What is the source of faith needed for healing?

We need to have faith in the Word of God, His promises, His love, and what Jesus has already done through the finished work of the cross.

5. How does the Holy Spirit help with discernment as you pray for others?

The Holy Spirit can help you know what to pray, how to pray, and when to pray.

6. According to 2 Corinthians 5:14, the love of Christ compels us. What are some things this love compels you to do?

Possible answers: God's love compels me to step out of my comfort zone and pray for others; I feel compelled to share with others that God loves them and wants them healed; when I have a revelation of God's love, faith and hope arise in me, and I want to help others know God's love and experience healing.

7. What might increase your boldness to step out of your comfort zone and ask if you could pray for someone?

Answers will vary.
