

Q&A Session 2

Many people have questions about healing and the following questions are ones which are typically asked. If you find that your questions aren't among these being answered, just remember that you can go to the Lord and ask the Holy Spirit to teach you (John 14:26) and guide you into truth (John 16:13). God loves your questions because He has the answers for your life, and your story is going to be a powerful testimony. Be encouraged to go back to the lessons and listen to them again. Review your notes and meditate on God's Word. Use these questions and answers, and the video teachings, to receive and walk in healing. Then start stepping out in boldness and pointing out the things of the enemy that he's trying to do in other people's lives.

1. Can bitterness and unforgiveness toward someone block my healing?
2. Is God willing to heal me even if my sickness is my fault?
3. Is all sickness related to what I eat?
4. Why do some people get healed the first time they get prayer?
