

## POINTS TO PONDER

- We need to be speaking (testifying, telling others) about what Jesus has done for us already.
- Don't just settle for life when you can have abundant life.
- When we've received a lie, a deception of the Enemy, the problem is we don't know we're deceived because we're deceived. But in the Scriptures, it says that the Holy Spirit leads us into all truth (John 16:13).
- It doesn't matter how long somebody has been dealing with a condition, whether it's physical or whether it's mental. The root of that is never from God; it's always from the Enemy, and the answer is always Jesus.
- Sickness and disease will come to distract you from the very Person who is your answer.
- The Enemy can't steal something from someone unless it is something they already possess.
- If you're going through a challenge, don't see it as being defeated. Have the perspective that the devil is fighting you for something that you already have. You already have the victory!
- When you start to realize who you are in Christ, you'll start to clothe yourself in your new identity.
- If death itself is the end result of whatever sickness you're going through, and death could not hold Jesus in the grave, and Jesus lives on the inside of you today, then that death cannot hold you either. You have received the power of the kingdom of heaven, the Healer Himself, on the inside of you. That means the power to raise the dead, heal the sick, or cast out any demon of hell, lives on the inside of you today!
- The Enemy has no power over you unless you buy into his lies. The only power the Enemy has over you today is deception.
- Jesus has deprived the Enemy, sickness, and disease of the power to harm you.
- You don't have a faith problem; you just place more faith in the words of the Enemy than you do in the words of Jesus.

- You have the DNA of Jesus on the inside of you. If you've received Jesus, you've received the Healer.
- Sickness and disease were never a gift from God. So, when you're dealing with sickness and disease in your body, it's time to re-label that, "Return to Sender."
