

Q&A Session 2

This Q&A session covers lessons 7–16 of section 1, which dealt with the foundational principles of healing. These lessons covered the expectations of healing and redemption as a child of God through the Word, prayer, and the power and resurrection of Jesus. You may know people who are asking these same questions. As you follow along with the Q&A session, take notes on the answers so you can share them with others.

1. Why does supernatural healing seem more radical than supernatural forgiveness of sin?
2. Why does it seem like greater healings and miracles happen in third-world countries?
3. Is there healing provision for injuries or missing limbs as well as sickness and disease?
4. Do these principles of healing apply to relational and marital issues?
