

POINTS TO PONDER

- The healing for your body is just as much a part of the Atonement of the Lord Jesus Christ as the forgiveness of your sins.
- Faith is the positive response to what Jesus did. Before you ever asked God to forgive you, God had already paid for your sins. It's not a matter of if He will forgive you; He has forgiven you, but you must receive it. All you've got to do is mix faith with what God has already done, and it releases the power of salvation.
- You receive healing the same way that you receive salvation. Jesus has already paid for your sins, and He has also already healed your sickness; you just have to believe and receive it.
- If you have made Jesus Christ your Lord, the resurrection power that brings healing is already inside of you. It is a part of salvation. Just as God has forgiven your sins, He has healed your body.
- In the same way that you resist living in sin, you can resist getting sick.
- You were redeemed from sickness, and if you believe that, then fight against that sickness the same way that you fight against sin.
- You do not have to let what happened to somebody else in your family dominate you. If you talk about sickness that runs in the family and assume you will have it, you are cooperating with the devil.
- You do have a choice about sickness. You have to take your thoughts captive and be violently resolved that you are going to have the healing that Jesus purchased for you.
- Jesus suffered sickness for you. Do not let the healing He provided you just lie on the table without taking advantage of it.
