

**LESSON REVIEW
ANSWERS**

1. Why is it important to believe that God loves you?

Possible answers: Faith rises up when I know I'm loved by God; God's love is like a parent's love for their child, and parents want their children healed.

2. What does 2 Corinthians 3:18 remind us to do concerning our health?

We become like what we behold. We need to begin to see ourselves as healed on the inside.

3. How can you change the vision in your heart?

Focus on the Word of God to produce faith that changes the vision of the heart.

4. Use John 3:14 to explain how the Israelites changed their focus.

Possible answer: The Israelites were discouraged and murmured, so God told Moses to make a fiery snake on a pole. In order to live, the Israelites had to look up at the pole and see a type of Jesus who would come and heal. They had to get their eyes off their problems.

5. Why do some people lose their healing?

Possible answers: Some people lose their healing because they were healed by gifts of the Spirit but don't have the Word of God inside them to guard the healing from counterattacks; they might not focus on keeping a picture on the inside of themselves healed; they doubted.

6. How can you address lying symptoms and other counterattacks?

I need to get the Word of God on the inside of me and speak God's Word to the symptoms and the devil.
