

POINTS TO PONDER

- There is a connection between hearing and healing.
- There is no disease exempt from Jesus's healing power.
- Jesus is the same today as He was in the days that He walked the earth. He healed them all back then, therefore, He is still healing all today. Jesus is the same Healer, and we will receive healing if we will only believe Him more than the doctor's prognosis and diagnosis, more than our experience, more than our pains, and more than our symptoms.
- Deny that the doctor's diagnosis has the final authority in your life. Instead, use your authority to take what you believe God has promised.
- You can't find a place in the Bible of anyone coming to Jesus and not receiving healing.
- Jesus didn't take offense at the leper's doubt. He cleared up the matter for anyone who has a similar question.
- Jesus is the same yesterday, today, and forever. His will hasn't changed, and His ministry hasn't changed.
- When you accepted Christ, you became the seed of Abraham, and the seed of Abraham ought to be free. The seed of Abraham should not be sick or bound in a hospital bed. Whenever the Enemy attacks, you can believe the Lord and believe His Word instead.
