

POINTS TO PONDER

- Faith is simple and people make it too complicated. We receive healing based on faith, and it's the same faith in which we've received salvation that we've received healing. So, we didn't have to go to university in order to receive salvation. We didn't have to read the whole Bible.
- The moment we receive Jesus, we receive Christ the Healer on the inside of us. But there are a lot of people who have wrong doctrine.
- People have to push through and renew their minds to the truth of God's Word, rather than man's preconceived opinions.
- These thought systems turn into reasonings and sometimes even strongholds in their minds against healing.
- It's always God's will to heal; it's always God's will for you to be well and prosper even as your soul prospers.
- When you're motivated by love and you want to see somebody healed because you love them, then that's a whole different thing than all this other stuff that turns into some sort of religious system.
